

## **Abstract**

Aljamieiiyn city kept with its old name through out its history, which is the nucleus of the Hilla city, and many years before establishing it, was landmark urban and residential ancient and fertile ground, generous, rich farms and green fields, abundant water and many yields, and was part of the influence of the Abbasid state, however, it was attacked by Arab tribes, movements the fourth and fifth centuries AD in its history.

The construction of the city of Hilla, north of the old Aljamieiiyn City and that the existence of the locality Kurds Gaoan north of the new city of Hilla, is further evidence that the Hilla built in the north of the ancient city of Aljamieiiyn and Not in the Aljamieiiyncity itself and could be the new city had merged with it and contact building out over time, and that the collectors City remained In the same old replaced, then it did not place never change which has retained its landmarks and urban homes old and her name across all its history.

And Aljamieiiyn inhabited city and crowded them a province wide and investor before establishing Hilla long period, and its old borders and its environs is the current coca plant site and the Chamber of current Hilla trade and building Hilla prison reform and Alwa old lawns and condominium door scene (Imam Ali Street (p)) and the locality of the current energy even Euphrates River .

Any way we tried in these pages tracing the history of the city of Aljamieiiyn political to the year ٤٩٥ AH / ١١٠٢ AD when Hilla reconstructed by the hands of banymzieed, relying on a range of sources and references that dealt with the subject.
