

Abstract

Psychodrama is a means of psycho-social therapy (both individually and collectively for young and old) through the theater, employing the techniques and techniques of the Seikodrama through theatrical text, reflecting the political, economic, social, psychological, artistic, religious, cultural and environmental dimensions. (The rain of summer) for (Ali Abdul Nabi Zaidi). "The four chapters contained the first chapter on the methodology of research and included the problem of research on the following question: (What are the implications of the Seikodrama in the text of the play (rain summer) Ali Abdul Nabi Zaidi) The search was done The aim of the research is to identify the extent of the effects of the saikodrama in the text of the play "Summer Rain" by Ali Abdul Nabi al-Zaidi. The limits of the research have been extended for a period of (2011) and spatial limitations: Iraq, While the objective limit is to study the implications of the Seikodrama in the text of the play "Summer Rain" by (Ali Abdul Nabi Al Zaidi). The second chapter is related to the theoretical discussions and the theoretical framework. The second chapter dealt with the theoretical references to (Ali Abdul Nabi Al-Zaidi). The third chapter came to be the research procedures where the researchers adopted the research society. The text of the play (Summer Rain) The researchers adopted the descriptive analytical approach in the method of text analysis and the research tool, which was based on the theoretical framework indicators and the literature that means the cycrorama as well as the analysis of the sample and its presentation to the experts. In the fourth chapter where the results were drawn up and mentioned

1-1 Seikodrama has developed awareness of the negative behavior of the characters who suffer from mental disorder, even knowing the error and the realization of the bitter reality and face the problem to reach consensus with others. As in the character (in the play Rain Summer). The conclusions mention:

1-1 Seikodrama was known as an important means of cleansing, which is called psychologists (emotional venting)

Then recommendations and proposals and finally a list of sources and references and summary in English.
